

NC PARENTS' BILL OF RIGHTS

[North Carolina General Statute § 115C-76.25](#) outlines parents' rights in regards to the education of their children. Many of these rights were already addressed in KCS Board Policy; however, since [NC Senate Bill 49](#) (Parents' Bill of Rights) passed in August 2023, to address all requirements of the law, revisions to existing policies occurred, and these were approved in October 2023. Some new policies were also developed to support implementation of the Parents' Bill of Rights. The Parents' Bill of Rights allows us to consolidate all of this information in one convenient location, thus promoting transparency and accessibility for families. As we receive any additional clarification on this new legislation, we will be addressing this through new and/or modified policies that will be made available on this site.

NC PARENTS' BILL OF RIGHTS

A Message From Cabarrus Health Alliance

Kannapolis City Schools and the Cabarrus Health Alliance School Health Program have procedures in place to address parental consent for medical treatments provided at school.

Health services provided by School Nurses and school staff may include first aid and emergency services, including the evaluation for illness and injury, vision and hearing screenings, and health education.

School Nurses and trained school staff may only administer medications and perform medical procedures following a medical provider's order and with parent/guardian consent on file. Parents or guardians will be given the opportunity to consent to any treatments provided by school nurses or school staff that require consent under the Parents' Bill of Rights.

Should parents or guardians have any questions regarding the health care services and medical treatments provided at school, they should contact the School Nurse at their child's school.
